Article Numbers: 309915, 309914, 309913, 309912, 309911, 309910, 309909, 309908, 309907, 309906, 309905, 309904, 309903, 309902

Safety Instructions:

- The shoes should be checked for cracks and damage before wearing. Do not wear the shoe if it is damaged. Replace damaged shoes if necessary.
- The shoes are not suitable for use in extreme conditions such as high temperatures, extreme cold or chemicals.
- Avoid contact with chemicals or extreme weather conditions to prevent material damage.
- Not suitable for use in explosive atmospheres or as sports or leisure footwear.
- Be aware of the risk of slipping on wet or slippery surfaces. Take particular care on wet surfaces.
- Keep the shoes dry and clean to extend their service life and maintain their antistatic properties. Follow the instructions for care and cleaning.
- Suitable for industrial use, but not for permanent contact with water.
- Regularly check the integrity and wear of the puncture-resistant insole and the shoe material. Ensure that the shoe is properly fitted to minimise the risk of injury.
- Only wear the safety shoe for the intended applications and ensure that the aluminium cap is used correctly to minimise the risk of injury.
- To avoid sprains or injuries, do not use the shoes if they do not provide sufficient support or are incorrectly designed.
- Wearing suitable socks to prevent blisters and fitting and tying your shoes correctly will protect you from injury.
- Be aware of possible allergic reactions caused by the materials used and wear suitable safety clothing.
