Please note the technical data of the products!

Article Numbers: 156786, 156785, 156784, 156783, 156782

Safety Instructions:

- Do not use a workbench with a surface load of more than 1250 kg to ensure stability.
- Ensure that the workbench is placed on a level and stable surface to prevent it from wobbling or tipping over.
- Use the height-adjustable feet carefully and check their stability regularly to prevent them from slipping.
- Secure the drawer and the central locking system to prevent injury and unauthorised access.
- Be aware of the risk of injury from sharp tools and use suitable PPE.
- Do not bring the solid beech worktop into excessive contact with water.
- Workbench is not suitable for children; control access for children. Not suitable for children under 3 years of age due to small parts.
- Choking hazard due to small parts (e.g. handle, key for the lock); avoid improper use.
- Risk of electric shock if electrical components are used incorrectly.
- Take safety precautions when adjusting the height to avoid the risk of falling and injury.
- Maintain the workbench regularly, especially drawers and locks.
- Only use the workbench for its intended purpose and do not load it beyond the specifications. Only use the enclosed keys for safety functions.
