Article Numbers: 320672, 320671, 320670, 320669, 320668, 320667, 320666, 320665, 320664, 320663, 320662

Safety Instructions:

- Choking hazard due to unsupervised use and loose parts.
- Risk of falling if used incorrectly, especially on slippery surfaces.
- Risk of injury due to improper use of the safety shoes. Only wear them for the intended purpose and in the appropriate areas of use.
- Safety shoes should be checked regularly for wear and tear, especially of the soles and the penetration protection, in order to minimise hazards.
- Keep the shoes clean and dry to maintain functionality and durability.
- The shoes are not suitable for extreme temperatures or use in water.
- Avoid contact of chemical cleaning agents with the S3 safety shoes in order to maintain antistatic properties.
- Shoes offer no protection against chemicals, high temperatures or direct electrical work.
- Make sure that the shoe fits correctly to avoid injury.
- Read and follow all operating instructions and safety instructions.
- Safety shoes are designed for professional use and are not suitable for private or extreme environments.
