Article Numbers: 320806, 320805, 320804, 320803, 320802, 320801, 320800, 320799, 320798

Safety Instructions:

- Choking hazard due to small parts in the sole, especially if used improperly.
- Risk of slipping on smooth surfaces; check the sole regularly for slip resistance and wear.
- Not suitable for use in extreme temperatures; avoid extreme heat or cold.
- Use for commercial applications only recommended with appropriate training; use only for intended purpose.
- Protection against mechanical impact in accordance with S2 standard; offers protection against impact and pressure.
- Suitable for use in electrical environments (ESD-capable), but check regularly for wear and tear.
- Not suitable for hazardous chemicals or high risk environments; keep shoes away from aggressive chemicals.
- Products are subject to safety monitoring in accordance with the current EU regulation.
- Before use, make sure that the sole is not slippery and that the shoe does not get excessively wet.
- Remove dirt and moisture regularly to ensure breathability and keep the shoe dry.
- Allow the shoe to acclimatise before first use and clean the soles regularly.
- Always wear the appropriate safety clothing and regularly check the condition of your shoes.
- Warning: If there are any signs of damage, stop using the shoes and replace them immediately.
- Improper use of electrical components can cause electric shocks; do not use shoes in electrical areas that are not specially insulated for this purpose.
