Please note the technical data of the products!

Article Numbers: 156796, 156795, 156794, 156793, 156792

Safety Instructions:

- Maximum surface load: 1250 kg for the entire workbench, do not exceed 450 kg when the chassis is extended.
- Ensure that the workbench is set up on a stable, level surface to avoid tipping and the risk of slipping.
- Do not overload the drawer, door and shelves and only use them up to the maximum opening width to prevent damage or injury.
- Only use the central locking system for security to prevent unauthorised access, especially in a commercial environment.
- Ensure that the workbench is raised and lowered correctly to avoid finger injuries and damage caused by the eccentric lever.
- Regularly check the functionality of the eccentric lever, especially when used by persons over 100 kg, to ensure safe rolling and folding.
- Ensure that the wheels are properly locked to prevent unintentional rolling, especially on uneven floors.
- Keep the workbench out of the reach of children and do not allow anyone under the age of 16 to use it in the vicinity.
- The use of safety goggles and gloves is recommended for heavy work.
