Safety Instructions:

- Maximum load capacity per drawer: 100 kg. Avoid overloading the drawers.
- Maximum surface load of the worktop: 1250 kg. Do not overload and do not use sharp objects.
- Ensure that the workbench is stable and on a level, solid surface to avoid the risk of tipping and falling over, especially when adjusting the height.
- Only pull out drawers up to 90% to prevent them from tipping over.
- Use only for commercial purposes or by adults. Not suitable for children; keep children away from the workbench.
- Only adults should assemble or adjust the workbench. Adjust the height when the workbench is locked and ensure that all feet are in contact with the floor.
- Carefully read and observe the safety and installation instructions.
- Warning: There is a risk of injury if used incorrectly, especially when lifting heavy loads. Observe the safety warnings for heavy weights.
- Keep the workplace clean and free of obstacles. Store small parts and tools safely to avoid the risk of tripping or injury.
- Only use the workbench for its intended purpose.
