Article Numbers: 156806, 156805, 156804, 156803, 156802

Safety Instructions:

- Caution: Choking hazard due to small parts, especially if handled incorrectly.
- Risk of tipping over due to improper use, insufficient load or uneven ground.
- Always use the workbench on level surfaces to minimise injuries.
- Do not exceed the maximum surface load of 450 kg to avoid injury or material damage.
- The workbench is not suitable for use by children and should only be used under adult supervision.
- Risk of joint damage and injury due to improper use of the castors.
- Risk of slipping on smooth surfaces when moving the workbench.
- Ensure that the brakes on the castors are activated when not in use to prevent them from rolling away unintentionally.
- Make sure that the drawers are not opened at the same time to prevent them from tipping over.
- Regularly check the stability of the drawers and the function of the castors.
- Avoid contact with sharp objects on the worktop to prevent damage.
- If the width is changed, take particular care when assembling the workbench to avoid stability problems.
- Make sure that small parts cannot get into the reach of children.
