Safety Instructions:

- The workbench may only be operated by qualified persons.
- Ensure that the workbench is placed on a stable and level surface, especially when using the height adjustment, to prevent it from tipping over and to ensure stability.
- Avoid overloading the drawers beyond the specified maximum load capacity of 100 kg. An integrated locking mechanism ensures that the drawers cannot be opened without authorisation.
- The weight of up to 450 kg on the work surface must not be exceeded in order to prevent damage.
- Ensure that there is no risk of trapping fingers when adjusting the height.
- Always keep the work surface clean and free of obstructive objects to avoid accidents.
- Read the instructions carefully before use and follow all safety instructions.
- To protect against injury, sharp and heavy tools should always be handled with care.
- The workbench is not suitable for use outdoors or in environments with high humidity.
