Article Numbers: 156833, 156832

Safety Instructions:

- Before use, ensure that all screws and fastenings are tight.
- Do not use more than the permissible surface load of 1250 kg.
- For height adjustments, observe the safety precautions to prevent tipping and place the workbench on a stable, level surface.
- Protect the workbench from moisture and extreme temperatures to ensure the longevity of the materials.
- Clean surfaces with suitable cleaning agents to prevent damage to the beech wood or powder coating.
- Do not leave sharp objects in the drawers or on the worktop to avoid injury.
- Only recommend using the workbench for its intended purpose (e.g. working with hand tools) and ensure that the workbench is stable.
- Do not use the drawers above their maximum load of 1250 kg.
- The workbench should only be used by persons who are familiar with it and have taken the necessary precautions.
- Keep the work area clean and free of obstructive materials to minimise tripping hazards.
- The workbench is not suitable for use by children, in particular due to potential crushing and cutting hazards.
