Please note the technical data of the products!

Article Numbers: 156837, 156836

Safety Instructions:

- Place the workbench on a stable, level and firm surface to prevent it from tipping over.
- Avoid overloading the workbench; the maximum load capacity must not be exceeded: 450 kg with the chassis extended, 1250 kg with the chassis retracted.
- Only load drawers with a maximum of 100 kg to prevent them from being pulled out and falling.
- Ensure that children are kept away from the workbench to avoid injury.
- Regularly check the functionality of the drawers and locking mechanisms.
- Ensure that the castors are fitted correctly to ensure manoeuvrability and stability.
- Observe the use of security and locking mechanisms to prevent unauthorised access.
- In the event of improper use or overloading, there is a risk that the workbench will spring back, unintentionally retract, tip over or collapse.
