Safety Instructions:

- Ensure that the product does not tip over or become unstable when heavier tools or materials are placed on the worktop.
- Avoid using the workbench on uneven ground to prevent accidents caused by tipping.
- The maximum load capacity of the workbench is 450 kg; do not exceed this limit to avoid safety risks.
- Ensure that the drawers are not overloaded, as this can lead to breakage.
- The drawers have a load capacity of 100 kg, so only use them according to their capacity.
- Make sure that the central locking system is working properly to prevent unauthorised access.
- Check the condition of the castors regularly to ensure that the workbench can be moved safely.
- Always keep the work area clean to avoid tripping hazards.
