Safety Instructions:

- Avoid overloading: Observe the maximum permissible surface load (1250 kg).
- Use suitable personal protective equipment, especially when using the workbench.
- Do not overload the workbench, especially when the chassis is extended (max. 450 kg).
- To avoid injury, do not pull drawers over and always ensure that no body parts are in the drawer pull-out when closing.
- Only use the workbench on a level surface to avoid wobbling and tipping.
- When using the eccentric lever, ensure that no fingers can become trapped.
- Always wait until the castors are fully engaged before moving the workbench.
