Safety Instructions:

- Wear suitable personal protective equipment such as gloves, especially when working with heavy objects.
- Observe the maximum surface load of 1250 kg to avoid overloading and structural damage.
- Make sure to distribute heavier objects evenly to ensure the stability of the workbench.
- The workbench must be placed on a firm, stable and level surface to prevent it from tipping over.
- Avoid the use of aggressive cleaning agents to protect the sanded and oiled surface.
- Regularly check the stability and the connecting elements.
- The workbench is not suitable for use by children and should not be used as a play area or for climbing.
- Beware of sharp edges and corners during assembly and use.
- Avoid direct heat or moisture in order to maintain the quality of the materials.
- Follow the safety precautions and instructions carefully during installation and use.
- Risk of suffocation due to improper use of small parts or tools.
