Article Numbers: 320525, 320524, 320523, 320522, 320521, 320520, 320519, 320518, 320517, 320516, 320515

Safety Instructions:

- Risk of suffocation if the protective toe cap is used improperly or the product is handled incorrectly.
- Risk of injury from sharp objects if the penetration protection is not present or has been damaged.
- Wear suitable footwear and take protective measures when carrying out electrical work, as antistatic properties can be impaired by moisture.
- Risk of slipping in wet conditions, as SRC certification does not cover all conditions.
- Do not use shoes at temperatures below -20 degrees or in extreme climatic conditions.
- Check the shoe regularly for damage or wear and replace if necessary.
- Avoid contact with sharp objects and hot surfaces so as not to impair the protective effect.
- Steel toe cap offers protection in accordance with EN ISO 20345 against impacts up to 200 J and crushing.
- Use shoes only for their intended purpose and in compliance with safety standards.
- Not suitable for use in high-voltage areas, under water or for non-commercial excursions.
- Wear the correct shoe size for optimum protection and comfort and avoid incorrect handling, e.g. due to improper fitting.
- Caution in wet conditions: Slip resistance may be impaired.
