### Safety Instructions:

- The shoe is not suitable for use in explosive or extreme electrical environments unless they are labelled accordingly.
- Ensure that the shoe is the correct size to avoid jeopardising foot health and wear suitable socks to prevent blisters and chafing.
- Observe the maximum load capacity and do not exceed it to avoid injury.
- Ensure that the shoe is checked for damage before use, especially the steel toe cap and soles.
- The shoes are designed for use in ESD-protected areas and should not be used elsewhere.
- Make sure to clean the shoe regularly and keep it dry to ensure antistatic properties and increase its service life.
- Avoid using the shoe in wet or slippery conditions to minimise the risk of slipping.
- Keep the shoe away from fire and extreme temperatures to avoid material damage.
- The product contains microfibre and textile components that may cause allergies.
- Clearly inform consumers about the safety and intended use of the product.
