Safety Instructions:

- Observe maximum surface load of 1250 kg, evenly distributed.
- Drawer may carry a maximum of 100 kg, do not overload.
- Only pull out the drawer up to 90% to prevent tipping.
- Place the workbench on a stable, level surface to prevent it from tipping over.
- Before use, tighten all fastenings firmly and check for stability.
- Regularly check for damage or deformation and take appropriate measures.
- Avoid the risk of cuts from sharp edges on the worktop.
- Only use the workbench with the intended objects; any modifications could impair safety.
- Follow the manufacturer's safety instructions for operation, transport and installation.
- Use non-slip feet or studs on the feet of the frame to ensure stability.
- Not suitable for children under 14 years of age.
- Avoid water accumulation when using electrical appliances.
- Use safety goggles and suitable personal protective equipment.
- Dispose of the product properly in an environmentally friendly manner.
- Keep tools and materials out of the reach of children.
- Do not use in damp environments to avoid deformation.
- Keep the workplace tidy and free of obstacles.
- Do not stand or climb on the workbench.
