### Safety Instructions:

- Choking hazard due to improper use of small parts, especially by children, due to unsupervised play with small parts.
- Risk of injury from crushing and impact, make sure that the steel toe cap fits correctly and only use the shoes for their intended purpose.
- Risk of electric shock due to improper use with electrical components and in catering areas, ensure that the shoes comply with ESD standards.
- Risk of slipping on wet or slippery surfaces, avoid use in extreme conditions and keep the soles clean.
- The shoes are water-resistant, but not suitable for permanent contact with water, please ensure proper care.
- Not suitable for contact with chemical substances or extreme temperatures; consult a specialist if you have foot or joint problems.
- Children should be kept away from the appliance and from accessing loose parts to avoid the risk of suffocation.
- Make sure to check the shoes regularly for damage, such as to the steel toe cap or the ESD functions, to minimise the risk of injury.
