Article Numbers: 320628, 320627, 320626, 320625, 320624, 320623, 320622, 320621, 320620, 320619, 320618, 320617, 320616

Safety Instructions:

- Protects: Steel toe cap protects against mechanical hazards, puncture-resistant sole protects against sharp objects.
- ESD protection: Antistatic properties protect against electrostatic discharge, check regularly for conformity with EN ISO 20345 S2 SRC.
- Materials: Water-resistant thanks to hydrophobised nubuck leather, breathable textile lining for comfort. Caution in wet conditions, as not completely waterproof.
- Operating environment: Not suitable for explosive atmospheres, electrically conductive floors, children under 12 years of age, extreme temperatures or chemical substances without testing.
- Risk of slipping: Walk carefully on wet or slippery surfaces, with insufficient tread or ESD-compatible soles.
- Electric shock: Danger due to improper use in electrical environments.
- Choking hazard: In case of improper use of the steel cap or small parts, especially by children.
- BOA® fastener: Secure and customised adjustment, check function regularly, improper adjustment can lead to injuries.
- Allergic reactions: Possible in case of skin contact with nubuck leather or textile lining.
- Shoe care: Check regularly for damage and replace damaged parts immediately.
- Safety standard: Suitable for commercial use, but note size and fit, do not use when working at great heights.
