Safety Instructions:

- Suitable personal protective equipment must be worn when using the power tool vacuum cleaner, including respirators and safety goggles.
- The appliance must not be used for extracting flammable or explosive substances.
- Ensure that the vacuum cleaner is always stable to avoid the risk of tipping.
- Check the cables regularly for damage to avoid the risk of electric shock.
- The vacuum cleaner should only be used in dry environments to minimise the risk of a short circuit.
- Make sure that the filter is properly maintained and changed to ensure optimum filtration.
- Avoid contact with water or moisture during operation.
