Article Numbers: 144320, 144319, 144318, 144317, 144316, 144315, 144314, 144313

Safety Instructions:

- Not suitable for children under 3 years due to choking hazard from small parts.
- Keep out of the reach of children to avoid the risk of choking on small parts.
- The chair is not suitable for children; choking hazard due to small parts possible.
- Use only on stable surfaces.
- Before use, ensure that the chair is standing on a stable, level surface.
- Before use, ensure that all connections and mountings are correct and tight.
- Ensure that there are no sharp edges or hazardous materials.
- Observe the maximum load capacity to avoid tipping over.
- Use the anti-tippers as directed to prevent tipping over.
- The chair could tip over if used incorrectly; anti-tip protection available.
- Ensure that the chair does not tip over during dynamic sitting.
- Ensure that the plastic glides are intact to prevent damage to the floor.
- Check the plastic glides regularly to avoid scratches on the floor.
- Installation of the plastic glides to protect sensitive floors.
- Risk of suffocation due to improper use when stacking chairs.
- Warning about possible risk of injury if stacked incorrectly.
- Suitable for adults and not for children under 3 years of age to avoid the risk of accidents.
- Before use, ensure that all parts are properly assembled and in good condition.
- Regularly check the product for wear and tear or damage that could impair safety.
- Read the instructions and safety information carefully before using the chair.
- Provide clear instructions on how to use the product safely and, if necessary, how to assemble it.
- The chair should not be stacked more than the maximum recommended number to avoid injury.
- Check the possibility that children could play with the product, especially due to the design and materials.
