Safety Instructions:

- The product is not suitable for use by children and should not be used as play equipment.
- Make sure that the cabinet is placed on a stable, level surface to prevent it from tipping over, especially in households with children.
- Ensure that the cabinet is securely fastened to the wall to prevent tipping.
- Avoid loading the cabinet above the recommended load of 70 kg per shelf to prevent structural damage.
- Use the security lock regularly to prevent unauthorised access and check its functionality.
- Keep keys, small parts and the safety lock out of the reach of children to avoid the risk of suffocation.
- Open the doors carefully to avoid the risk of crushing and to prevent twisting or damage.
- Assemble the cabinet according to the instructions and use two people when moving heavy parts.
- Protect the cabinet from moisture to prevent corrosion and avoid using it in extreme environments.
- Take care to keep the cabinet and its contents out of the reach of children.
- Protect the steel shelves from overloading and use them in accordance with the recommended load capacity.
- Improper use can damage the cabinet, so make sure that the hinges are properly adjusted.
