Safety Instructions:

- Make sure that the cabinet is placed on a stable, level surface to prevent it from tipping over.
- Only use the cabinet for the intended storage purposes to avoid damage or injury.
- Hold the door of the cupboard firmly when opening to avoid the risk of it closing suddenly.
- Keep the keys to the security lock in a safe place to prevent unauthorised access.
- Read the assembly instructions carefully to ensure that the cabinet is assembled correctly.
- Avoid overloading the shelves above the recommended load capacity of 70 kg to prevent the wardrobe from falling over.
- The cabinet should be assembled in accordance with the enclosed instructions to ensure safe use.
- Due to the height of the cabinet (1980 mm), there is a risk of it toppling over if handled incorrectly. Secure the cabinet to prevent accidents.
- The hinges of the doors allow opening up to 225°; be careful when opening to avoid injury.
- It is recommended to store heavy objects in the lower compartments to increase stability.
- Ensure that the cabinet doors are fully closed before moving the cabinet to avoid injury from trapping.
- Avoid using liquids or chemical cleaners on the product to prevent damage.
- The product could have sharp edges if used incorrectly; precautions are therefore necessary.
- The product is designed for use by adults and is not suitable for children.
