Safety Instructions:

- The maximum load capacity of the shelves is 50 kg. Do not exceed this. Overloading can lead to damage.
- Make sure that the cabinet is securely fastened to the wall to prevent it from tipping over.
- Take care of your fingers and hands when opening and closing the roller shutter to avoid crushing them.
- The roller shutter cabinet should only be operated by adults, as improper handling can lead to injuries. Be careful when handling.
- The product may have sharp edges. Be careful when handling.
- Keep the keys in a safe place to prevent unauthorised access. Use the lock to protect confidential documents.
- The cabinet is delivered fully assembled. Check the stability after delivery and before use.
- Please ensure that children do not handle the product without supervision.
- Pay attention to possible damage to the acoustic roller shutter during transport.
