Article Numbers: 194236, 194235, 194234, 194233, 194226, 194225, 194224, 194223

Safety Instructions:

- Drawers must be loaded with a maximum load of 50 kg and used carefully when fully loaded.
- Securing against tipping over is necessary, especially when drawers are fully extended or heavily loaded.
- Drawers should always be fully closed to avoid the risk of crushing.
- Only pull out one drawer at a time to minimise the risk of tipping over.
- Use the central locking system to prevent unauthorised access and check regularly that it is working properly.
- Children should not use the cupboard or play with it unsupervised.
- The cabinet should be placed on a stable and level surface to prevent it from tipping over.
- Do not use the product if the drawers or carcass are damaged.
- Assemble according to the instructions to ensure that the cabinet is stable.
- Do not place the cabinet near heat sources or in humid environments.
- Watch out for sharp edges and exercise caution when using the cupboard.
- Always follow the manufacturer's instructions and safety information and keep them available.
- Only use the cabinet for its intended purpose.
