Article Numbers: 165409, 165407, 165406, 165405

Safety Instructions:

- Caution: Heating surface can become hot. Avoid direct contact with the laminating opening during operation to prevent burns.
- Keep the area around the appliance clear before use.
- Do not bring the appliance into contact with water. Take care not to use the laminator near water or in damp places to avoid the risk of electric shock.
- Avoid temperatures above 125 mic (135°C). Only use the recommended laminating films with a thickness of 80 to 125 mic to ensure safety and functionality and to prevent damage to the device.
- The appliance is not suitable for use by children. Keep children away from the appliance; ensure that the appliance is kept out of the reach of children to avoid the risk of burns.
- Not suitable for children under 3 years, choking hazard due to small parts.
- Automatic switch-off after 30 minutes of inactivity to prevent overheating and the risk of fire. Use this function to save energy.
- For use in dry indoor areas only.
- Do not use the appliance if it is damaged or malfunctioning.
- Read the manual before use and ensure that all safety instructions are observed.
- Never leave the appliance unattended while it is in operation to avoid the risk of fire.
- Unplug the appliance and switch it off when it is not in use to minimise the risk of electric shock or short circuit.
