Safety Instructions:

- Before use, ensure that the workbench is placed on a stable, level surface to prevent it from tipping over or wobbling.
- Maximum load capacity of the drawers: Do not exceed 100 kg per drawer to prevent tipping or breaking.
- Only pull out drawers up to 90 % to prevent jamming and tipping over; pull out slowly and carefully.
- Do not overload the workbench with a maximum surface load of 1250 kg to ensure stability.
- Use anti-slip studs on the feet of the frame to ensure additional grip.
- Use ErgoScript handles for safe handling of the workbench when moving it.
- Designed for adults only; use by children only under adult supervision.
- Suitable for commercial use; do not use outdoors or in damp conditions.
- Observe the safety instructions for installation and use to avoid injury.
- The surface of the worktop can become hot; use hand protection.
- Keep the work surface clean to avoid tripping hazards; do not modify the workbench improperly.
- Avoid the risk of suffocation and crushing due to improper handling of the drawers.
- Do not use the workbench as a ladder or use it above maximum loads.
