### Safety Instructions:

- Risk of suffocation due to improper use of the drawers, especially by children.
  - Risk of injury due to the heavy weight of the workbench (max. surface load 1250 kg).
  - Risk of crushing when pulling out the drawers. Drawers can be pulled out up to 90% - avoid overloading and unintentional tipping over.
  - The product is not suitable for children.
  - Take care when lifting or transporting the heavy workbench.
  - Do not exceed the maximum surface load of 1250 kg.
  - Only use the workbench on the surface intended for it and on a firm, level surface. Ensure that the workbench is stable to prevent it from tipping over.
  - The surfaces of the workbench may be slippery. Make sure that the floor is dry and clean.
  - The product may be unstable if not installed correctly - follow the safety instructions in the manual.
- Ensure safe installation and use in accordance with the instructions.
- Do not use drawers above their maximum load capacity of 100 kg.
  - Check the drawers regularly for damage to avoid injury.
  - Protect the worktop from excessive moisture to avoid deformation. Take care to avoid injury due to sharp edges.
  - Regularly check the structure and drawers for damage or wear.
