Article Numbers: 156931, 156930, 156929, 156928

Safety Instructions:

- Note the maximum load capacity of the drawers: max. 100 kg per drawer.
- Do not exceed the maximum surface load of the workbench: max. 1250 kg.
- The workbench must be set up on a stable, level surface to prevent tipping.
- Improper use can cause heavy objects to fall from the workbench and cause injury.
- Be aware of possible cutting or crushing hazards when handling the workbench.
- Ensure complete safety and stability of the connecting elements during assembly.
- Risk of suffocation from pulling out heavily loaded drawers.
- Risk of injury due to high surface load (max. 1250 kg).
- Risk of falling if the work surface is overloaded or used improperly.
- Risk of slipping due to improper positioning or excessive load on the workbench.
- Smaller parts in the drawers can be damaged if handled incorrectly.
- Read the assembly instructions carefully before using the workbench.
- Avoid placing heavy tools in the drawers during extraction to prevent injuries.
- The workbench may only be used for its intended purpose.
