Safety Instructions:

- Ergonomically height-adjustable table: Improper use can lead to injuries. Take care when using the electric motor.
- Safety note: High voltage present. Ensure that no liquids get into the electrical components. Keep the table away from water and moisture.
- Before installation, check all parts for damage and follow the installation instructions exactly. Assembly should be carried out in accordance with the enclosed instructions to ensure safe use.
- Set up the table on a stable and level surface to prevent it from tipping over. Always ensure that the table has sufficient space to allow for safe movements and adjustments.
- Do not exceed the maximum load of 200 kg to avoid structural damage or injury.
- Parents should ensure that children do not play with the electrical components or when adjusting the table.
- When adjusting the height of the table, do not place any objects or body parts in the lifting mechanism to avoid injury.
