Article Numbers: 193861, 193860, 193859, 193858, 193857

Safety Instructions:

- Ensure that the wall strap cassette is properly and securely mounted to a stable wall to prevent falls and structural instability.
- Carry out installation in accordance with the manufacturer's instructions to avoid structural instability and functional failure.
- Tighten the fastening screws properly and observe safety precautions during installation to prevent injuries and falling.
- A suitable wall structure is required for installation to prevent breakage.
- Do not pull the belt beyond the maximum extension length of 10 metres and avoid excessive lengths to prevent tearing or sudden retraction.
- Fully retract the belt when not in use to avoid tripping hazards and ensure that the belt is not in the way to avoid tripping hazards.
- Carry out regular inspections of the wall strap cassette and the strap anchorage to detect wear or damage.
- The wall strap cassette should only be used for its intended purpose in order to avoid injury.
- The belt should not be stored for long periods under extreme conditions in order to avoid material wear.
- Do not install the belt near heat sources, damp places, sharp or hot objects in order to avoid damage.
- Avoid unauthorised contact with sharp or moving parts and do not install near doors or other moving objects.
- Use by children should be supervised to minimise the risk of injury.
- Carry out safety checks before use to ensure safe functionality.
