Safety Instructions:

- Ensure that the cable bridge is laid on a stable, level surface to prevent tripping accidents.
- Only use the cable bridge for its intended purpose and follow the safety instructions carefully to avoid danger.
- Regularly check that the cable bridge is intact and has no visible damage.
- Keep the cable bridge away from hot surfaces and sharp objects.
- The cable bridge is not suitable for transporting vehicles or excessive weights: Do not exceed the maximum load to avoid damage or accidents.
- When using outdoors, ensure that the temperature limits of the materials are not exceeded.
- Avoid high voltage: Do not use the cable bridge in the vicinity of electrical cables.
- Be aware of the risk of slipping: Ensure a secure base and exercise caution in wet conditions.
- Do not manipulate or remodel the cable bridges to avoid unplanned risks.
