Please note the technical data of the products!

Article Numbers: 156972, 156971, 156970, 156969

Safety Instructions:

- Observe the maximum load capacity of 35 kg. The maximum load capacity must not be exceeded and must be evenly distributed.
- Only fit in conjunction with a superstructure profile and a Universal workbench system or Profi workbench system.
- Before use, ensure that the appliance bridge is mounted properly, stably and on a level surface to avoid accidents.
- Do not use the appliance bridge beyond the recommended table width.
- Small parts and components could pose a choking hazard. Ensure that children do not play with or near the appliance bridge.
- The equipment bridge is not suitable for lifting or carrying people.
