Safety Instructions:

- Ensure that the office chair is adjusted to the individual seat height to avoid health risks, taking into account the safety instructions provided and the correct use of the safety lift.
- The office chair is not suitable for children. Keep children away, especially from moving parts, to avoid injury.
- Ensure that the office chair is assembled correctly and in accordance with the recommended safety standards, and regularly check all parts for proper functioning and wear to prevent accidents.
- The maximum load must not exceed 110 kg. Avoid sitting with more weight to prevent overloading.
- The office chair is not intended for commercial use.
- The office chair should be used on a stable, firm and level surface to prevent it from tipping over.
- Use the chair in accordance with the instructions provided for the seat height and mechanism and keep the operating instructions within reach.
- Avoid overloading the backrest to prevent fractures.
- The chair should not be used as a ladder.
