

# Product Safety Information

## PE sump tray HD, made of polyethylene, 100 % recyclable, can be used with or without PE grate

**Manufacturer/Responsible Person:** CEMO GmbH, In den Backenländern 5, 71384 Weinstadt, Deutschland

**E-Mail:** kontakt@cemo-group.com

Please note the technical data of the products!

**Article Numbers:** 136141, 136140, 136139, 136138, 136137, 136136, 136135, 136134, 136133, 136132

### Safety Instructions:

- Store and position securely to prevent tipping or sliding. The tray should be placed on a stable, level surface and have a non-slip base.
- Wear suitable personal protective equipment such as gloves and safety goggles when handling hazardous substances. When storing hazardous substances, take appropriate measures in accordance with the applicable regulations.
- Use only for its intended purpose; the tray is not suitable for storage or contact with food.
- It should be stored in a dry, well-ventilated place away from direct sunlight and heat sources to prevent material damage.
- Check the tray regularly for cracks, leaks and other damage. If the tray is damaged, dispose of it and do not use it again.
- Do not overload to prevent cracking or structural damage. The tray should not be overloaded, even at extreme temperatures.
- Only use the tray for the intended hazardous substances in order to avoid chemical reactions and leaks.
- Make sure that the drip tray is in a stable position and that the pallets are stable, especially when using Euro pallets, to prevent them from tipping over.
- Use high-quality materials to prevent the penetration of any chemicals.
- Before use, ensure that the tray is checked for damage and functionality. Before use, ensure that all instructions for use are observed in order to avoid health risks.
- Dispose of the tray in accordance with local regulations for plastic and hazardous waste.
- Exposure to acids and alkalis can damage the tray; check regularly for damage and cracks.
