Article Numbers: 194494, 194493, 194492, 194491

Safety Instructions:

- Suitable for use in a data centre to significantly reduce the fire load.
- Installation may only be carried out by qualified personnel to ensure proper function.
- Use for 19" perforated brackets with 9.5 mm square holes to ensure secure mounting; only suitable for 19" perforated brackets with 9.5 mm square holes.
- Ensure that the blinds are firmly and securely mounted to prevent them from slipping or coming loose; correct installation is necessary to prevent them from falling out or slipping.
- Ensure correct disposal and recycling of materials in accordance with the applicable regulations.
- Only allow tool-free installation to be carried out by trained personnel; improper handling can lead to damage.
- Check quick-release fasteners regularly for tightness; if damaged or worn, the insert should no longer be considered safe and should be replaced.
- Check the product for damage before installation; the surface coating prevents rust formation, but is not scratch-resistant.
- Not suitable for persons under 16 years of age.
- Not suitable for use in applications that require triggering under extreme conditions.
- Do not use in flammable environments or without appropriate safety precautions.
- Safe handling and installation recommended; do not install or manipulate improperly; seek the help of specialised personnel if problems occur.
- Only use the product with the quick-release fasteners provided; other fastening methods have not been tested.
