Safety Instructions:

- The maximum load of the chair is 110 kg. Do not exceed this limit to avoid damage or injury.
- Check the chair regularly for damage or wear to ensure safety.
- Regular maintenance of the mechanics and adjustment functions to ensure safe operation.
- The chair should be used on a stable, level surface to avoid tipping.
- Recommended sitting time no more than 8 hours per day.
- Child safety: Children should only use the chair under adult supervision and should be kept away from small parts to avoid the risk of choking.
- Avoid using the chair on uneven or unstable surfaces to prevent the risk of falling.
- Avoid the risk of fatigue and injury due to incorrect height settings, therefore adjust the seat height and depth.
- Keep all moving parts correctly adjusted, including the armrests, to ensure ergonomic support.
- Keep the chair away from moisture, extreme temperatures and direct sunlight to prevent damage.
- Clean the fabric cover regularly according to the care instructions to ensure hygiene and prolong the life of the product.
- Only use within the recommended load capacity and application areas to minimise safety risks.
- Ensure that the chair is correctly assembled and that all safety mechanisms are working before it is used.
- Do not make any improper modifications or extensions to the chair construction.
- If possible, avoid sitting for more than eight hours without a break to prevent health problems.
- Make regular adjustments and checks of the seat and backrest settings to ensure optimum comfort and health.
- The chair should not be placed near open flames or heat sources to prevent material damage.
- The safety lift and other mechanical functions must be used in accordance with the operating instructions.
- The chair should only be used by children with suitable safety precautions or under supervision.
- Keep the area around the chair free of obstacles to prevent the risk of falling.
