Safety Instructions:

- Observe maximum shelf load (up to 500 kg with evenly distributed load).
- Avoid excessive strain to prevent structural damage.
- Ensure that the shelves are set to the correct height during installation.
- Take suitable protective measures to ensure safety in the event of heavy weights.
- Tubular construction may have sharp edges, take care when handling.
- Only use the base on stable, level surfaces to prevent it from tipping or falling over.
- Additional chipboards for storing small parts are optional, but recommended.
- Observe the safety instructions regarding height adjustability to prevent wobbling or tipping.
