Safety Instructions:

- Product not suitable for children under 3 years of age as it may contain small parts.
- Protect from direct sunlight to avoid discolouration and weakening of the material.
- Do not use aggressive cleaning agents to avoid damaging the surface.
- If there is a risk of fire, do not install near naked flames or hot surfaces.
- Observe the authorised installation instructions to ensure safe installation.
- Flame retardant according to DIN 4102 B1 - do not use open flames in the vicinity.
- Not suitable for use in areas where there is direct exposure to water and protect from moisture to ensure the integrity of the material.
- Do not use beyond the recommended installation and usage instructions.
- Sound-absorbing - for improved room acoustics, pay attention to the positioning to achieve optimum results.
- Improper handling may result in surface changes.
- Avoid burns from improper heat sources.
- For use in dry rooms only.
- Avoid direct contact with water to maintain the absorption capacity of the material.
- Designed for indoor use, not suitable for outdoor use.
- The products are used exclusively to improve room acoustics and are not protective devices against noise or noise sources.
- Suitable for use in offices, waiting areas and other public facilities - observe local regulations for public spaces.
- For use in private households and especially in rooms with children, ensure that the installation is safe and that there are no falling parts.
