Safety Instructions:

- Observe protection against fire hazard, as the wall absorber is flame-retardant in accordance with DIN 4102 B1, but not fireproof. Keep flammable materials away.
- Before use, ensure that the wall absorber is correctly installed and stable to avoid the risk of falling and injury. Ensure correct installation, preferably by a qualified person.
- For optimum performance, observe the recommended suspension methods and placements.
- The product is intended for indoor use only and should not be used outdoors. Avoid use in humid environments and close proximity to water sources and heat sources so as not to impair functionality.
- The wall absorber is flame-retardant in accordance with DIN 4102 B1. Therefore, keep flammable materials away. Ensure that the wall absorber is not used as a toy for children to avoid injury. Do not hang within reach of children to avoid the risk of suffocation from loose parts.
- Protect from direct sunlight to prevent the colours from fading. Do not store directly on the floor to avoid moisture.
- Only use slightly damp cloths for cleaning; avoid aggressive cleaning agents.
- For public places, take appropriate safety measures to prevent vandalism. Recommended for commercial use, should be used safely to avoid health risks.
- Room utilisation can soil the sound absorber; regular cleaning is recommended to protect the materials.
