Article Numbers: 400188, 400187, 400186, 400185, 400184, 400183, 400182, 400181, 400180, 400178, 400177, 400176, 400175, 400174, 400173, 400172, 400171, 400170, 400168, 400167, 400166, 400165, 400164, 400163, 400162, 400161, 400160, 400128, 400127, 400126, 400125, 400124, 400123, 400122, 400121, 400120, 400118, 400117, 400116, 400115, 400114, 400113, 400112, 400111, 400110, 400108, 400107, 400106, 400105, 400104, 400103, 400102, 400101, 400100, 400058, 400057, 400056, 400055, 400054, 400053, 400052, 400051, 400050, 400048, 400047, 400046, 400045, 400044, 400043, 400042, 400041, 400040, 400038, 400037, 400036, 400035, 400034, 400033, 400032, 400031, 400030

Safety Instructions:

- Ensure that the worktable is placed on a stable, level surface to prevent it from tipping over or wobbling.
- The maximum load on the table should not be exceeded to ensure stability.
- Regularly check the stability and tightness of the clamping screws to ensure safe height adjustment.
- Ensure that the table top is regularly checked for damage to prevent accidents.
- Take care not to place excessive loads on the table top to prevent damage or instability.
- Children should not use the table without supervision to avoid injury.
- The table top is not suitable for work with high mechanical and chemical requirements, except for the Multiplex version.
- Only use the table for its intended purpose to prevent damage or injury.
- To avoid injury, make sure that all screws and connections are tightened.
- When adjusting the height, make sure that no body parts are trapped.
- When working with damp materials, a suitable table top, such as the Multiplex version, should be selected.
- Protect the floor covering with rubber feet and use suitable underlays to minimise the risk of slipping.
- Use of the table in damp environments should be avoided unless the table top is suitable.
- Read all safety instructions and the operating instructions carefully before use.
