Please note the technical data of the products!

**Article Numbers:** 144255, 144254, 144253, 144252

### **Safety Instructions:**

- Risk of suffocation due to improper use of the armrests or height adjustment. The armrests can cause injury if used incorrectly; ensure that they are securely fastened.
  - Risk management during use due to the recommended sitting time of up to 8 hours. Correct your sitting position frequently to avoid incorrect posture and back pain.
  - Avoid incorrect posture by adjusting the backrest and seat height correctly. Height-adjustable backrest: Adjust the height to suit your height.
  - Beware of overloading: maximum load of 110 kg. Do not use beyond the maximum load capacity of 110 kg. Heavy loads can cause the chair to tip over or become unstable.
  - The executive chair is only suitable for commercial use. The chair should only be used by one person at a time to prevent it from tipping over.
  - Ensure that the chair is placed on a stable surface before using it. The chair should be placed on a stable, flat surface.
  - Only use the height adjustment and mechanics in accordance with the instructions to avoid injury.
- Caution: Adjustable parts can be dangerous if handled incorrectly.
- Firstly, assemble the product according to the instructions and check all parts for safety. Pay attention: Incorrect assembly can result in safety risks. Disassembled on delivery: Follow the instructions carefully to avoid injury during assembly.
  - Avoid exposing the chair to extreme temperatures or direct sunlight to prevent material damage. The product is not suitable for children as it is not a toy.
  - The cover is made of Climatex®, do not use sharp objects to avoid damage.
