Safety Instructions:

- Risk of suffocation due to improper handling of small parts such as screws and fasteners.
- Ensure that the monitor is mounted securely to prevent it from falling.
- Avoid loading the monitor column with more than the specified maximum load capacity of 15 kg.
- When using the system clamp, the table top thicknesses must be observed (14 to 40 mm) to ensure secure fastening.
- Use of the product should follow the instructions for installation and operation in order to minimise safety risks.
