Safety Instructions:

- Ensure that the table clamp is correctly installed to prevent the monitors from slipping or tipping over.
- Regularly check the stability and strength of the fasteners to ensure that they are safe and do not present a hazard.
- Observe the maximum permissible load of 11 kg per monitor and distribute the monitors evenly on the arms.
- When handing over the product to the consumer, enclose clear and comprehensible instructions for assembly and use.
- Ensure that the product is only used in accordance with its intended use and the stated specifications.
- Take particular care to ensure that no electrical cables or other safety-relevant elements are damaged during installation.
