Safety Instructions:

- The screen is not stable if not set up correctly; follow the set-up instructions and ensure that it is stable on a level surface to prevent it from tipping over.
- Do not set up the partition wall near open flames or heat sources to avoid material damage and hazards.
- To minimise the risk of injury, do not use the product in areas where children have sole access; the screen is not a toy and should be kept away from children.
- Levelling feet are not included and must be ordered separately to ensure the safety and stability of the partition.
- Avoid excessive load on the partition wall to prevent structural and material damage.
- When used in public areas, ensure that the partition wall does not pose a tripping hazard and that it does not obstruct the flow of traffic or act as a source of danger.
- Follow the instructions for installation and use carefully to ensure safe use. Keep the installation instructions and safety-related information in a safe place.
- It should be used with caution in areas with high pedestrian traffic and the screen should be placed at a sufficient distance from other objects.
- Avoid sharp edges and corners to prevent injuries. Ensure that there are no sharp objects in the area of the partition wall.
- The movable wall may only be used in an upright position and may not be used as a ladder or trampoline.
- The screen is not suitable for use in damp environments and should not come into contact with food.
- When using as a room divider, ensure that stability is not impaired.
- Only use suitable writing instruments on writing surfaces to avoid damage.
