Safety Instructions:

- Take care not to exceed the maximum load to avoid structural damage.
- Only use the table for its intended purpose to prevent accidents.
- The product is not suitable for use by children; ensure that it is out of reach of children.
- Ensure that the table top is properly mounted and secured to ensure stability.
- Check and retighten the clamping screws regularly to secure the height adjustment and prevent accidents.
- Secure the table on a stable and level surface to prevent it from tipping over.
- Avoid use in damp environments to prevent damage to the table top, unless the design is suitable for this.
- The table top should be protected against mechanical and chemical damage.
- Carry out regular inspections for wear and damage to ensure safety.
- Avoid using aggressive cleaning agents so as not to damage the surface.
- Use rubber shoes to minimise the risk of slipping and to protect the floor covering.
- Keep the workplace clean and free of obstacles to prevent injuries.
- Ensure that all parts and screws are fitted correctly to guarantee stability.
- When used in commercial environments, take protective measures and observe safety standards.
- Wear suitable personal protective equipment for use in industrial environments.
- Ensure that the table remains stable under mechanical stress and does not wobble.
- Provide warnings and safety information in an understandable language.
- The product must not be used in the vicinity of naked flames or extreme temperatures.
