Safety Instructions:

- Not suitable for children under 3 years of age due to potential choking hazards from small parts.
- The cabinet doors should always be closed to prevent injuries.
- Make sure that the locker is stable and securely positioned to prevent it from tipping over.
- Only use the locker for its intended purpose and avoid excessive loads.
- Do not pull too hard when opening the doors to avoid breakage or damage.
- Avoidance of sharp edges and corners for user safety.
- Assistance in opening and closing doors safely to prevent injuries.
- Regularly check for mechanical damage, wear of the locking mechanisms or rust, especially when used outdoors.
- Labelling of safety and handling instructions that are easy for the user to understand.
- Clearly communicate information about the 3-year safety guarantee.
- If electrical components are present, attach appropriate safety warnings.
- The doors of the locker are heavy, so they should be opened and closed carefully to avoid injury.
- Take care when using the cylinder lock to avoid damaging the keys and the lock.
- Keep small parts and accessories away from children to avoid the risk of suffocation.
- Use the locker only for its intended purpose to prevent inappropriate use and possible injury.
- Not suitable for use by children; supervision required.
- Risk of suffocation due to improper use of small parts in the tray.
- Risk of injury from sharp edges or protruding parts of the spindle.
- Risk of falling due to improper fastening or overloading of the compartments.
- Take care when using electrical appliances in the immediate vicinity of the locker.
- This product is not suitable for children.
- Ensure that the doors are not damaged when closing.
- Avoid placing heavy objects on the locker and do not overload it so as not to jeopardise the structural integrity.
- Keep the key and access to the lock out of the reach of children.
- Read and follow all safety instructions before use.
- Avoid using the spindle in damp environments to prevent corrosion.
- Use only within the intended scope; do not use as play equipment.
- If used incorrectly, the locker may tip over; ensure that it is placed on solid surfaces.
- Assembly and installation may only be carried out by qualified personnel.
- If a cylinder lock is used, ensure that the keys are stored securely to prevent unauthorised access.
- The integrated ventilation slots must not be blocked to prevent mould growth.
- There are special safety requirements for use by children, especially at school or during group activities.
