Safety Instructions:

- Ensure that the workbench is placed on a stable and level surface to prevent it from tipping over.
- When adjusting the height of the workbench, ensure that no parts of the body are trapped.
- Only use the clamping screw for height adjustment in accordance with the instructions to avoid injury.
- The maximum load capacity of the workbench must not be exceeded in order to avoid damage and injury.
- The workbench should not be used in damp environments unless it is suitable.
- Avoid contact between the table top and chemically aggressive substances, especially with plastic table tops.
- Protect the table top from sharp and heavy objects to avoid scratches and dents.
- Ensure that all screws and connections are firmly tightened to ensure stability.
- Check the workbench regularly for wear or damage to ensure safety.
- Wear personal protective equipment such as gloves and safety goggles when working at the workbench.
- Keep the work area clean and free of obstacles to avoid accidents.
- Avoid placing heavy objects over the tabletop to prevent crushing.
- Children should be kept away from the workbench to avoid accidents.
- Read all instructions for installation and use carefully to ensure safe use.
- Avoid using the workbench as a platform or standing on it.
- Appropriate care must be taken when using the workbench with heavy materials to avoid injury.
- Work safely: Ensure that the workbench is on a stable surface.
- The clamping screw should be checked regularly for tightness to prevent accidental slippage.
- The workbench is not suitable for use by children.
- Ensure that all parts are properly assembled before using the product.
