**E-Mail:** germanyinfo@acco.com

Please note the technical data of the products!

**Article Numbers:** 300872, 300871

### Safety Instructions:

- Unsuitable for children; small parts may pose a choking hazard. Keep the brochure sleeves out of the reach of small children to avoid choking or other hazards, even if the product does not contain any small parts.
- The product should be protected from moisture.
- The sleeves should not be stored in direct sunlight or near heat sources. Keep the brochure covers away from high temperatures or direct sunlight to avoid possible deformation of the material.
- Not suitable for use as a writing pad or in areas subject to direct mechanical stress. Do not use the brochure pockets for documents that require a high degree of processing or stress, as the durability may be limited due to the 0.1 mm thickness.
- Make sure to dispose of the brochure sleeves correctly after use to minimise the environmental impact and give preference to recycling options.
