Safety Instructions:

- Read and follow the assembly instructions in full before use. Ensure that all parts are assembled carefully and in accordance with the instructions to ensure safe use.
- Ensure that the desk is stable and secure on a level surface to prevent it from tipping over. Regularly check the stability of the desk and the parts for wear or damage.
- Observe the maximum load on the table top to avoid damage and instability. Avoid excessive loads.
- Keep children away during assembly and ensure that small parts remain out of their reach. The product is not suitable for use by children without supervision.
- To avoid electrical hazards, do not use the product near water or in damp conditions.
- Ensure that cables and accessories are properly routed and secured to avoid tripping hazards. Install and fasten cable ducts securely.
- Avoid overloading or improper use of the table to ensure stability and safety.
- When setting the table height, ensure that it is appropriate for the user and that the functions are set correctly.
- Only operate external devices, such as printers, in the intended manner to avoid the risk of injury.
- Avoid contact with sharp edges and corners of the table tops during use and assembly to prevent injury.
- Maintain additional safety when connecting tables to ensure adequate legroom.
- Warning of choking hazard and injuries due to improper handling or unsecured parts.
