Safety Instructions:

- Ensure that the workbench is placed on a stable and level surface to prevent it from tipping over or wobbling.
- Use personal protective equipment such as gloves and safety goggles during use.
- The workbench must not be overloaded in order to avoid structural damage. Observe the maximum load capacity.
- Read the instructions carefully before use and ensure that all parts are correctly fitted.
- The workbench is intended for commercial use only and is not suitable for children.
- Make sure that the clamping screw is securely adjusted to prevent sudden height adjustments.
- The workbench should be checked regularly for wear and stability to ensure safety.
- Keep the work surface clean and free of obstacles to avoid tripping accidents.
- Avoid contact of the table top with aggressive chemicals.
- Children should not have access to the workbench during use.
- Only use the workbench for its intended purpose.
- Support may be required when working with heavy or bulky materials.
- The workbench must be placed on a stable and non-slip surface.
- Appropriate protective equipment and precautions must be taken when working with wet or chemical materials.
- The workbench is not designed for use outdoors or in damp ambient conditions.
- Ensure that all accessories are installed correctly to avoid injury.
- When adjusting the height, care should be taken to ensure that body parts are not trapped.
